DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-28 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Drake, Jr. et al. (US 5,461,611).

Drake, Jr. et al. disclose a management system in Fig. 1 comprising the following features:

QoS requestor manager 12 and QoS protocol machine for implementing a multi-media call application that effectuate QoS management for a packet based multimedia call associated with each stream ID; the QoS requestor for determining if a QoS allocator 20 that manages network bandwidth is connected to LAN 17; QoS allocator 20 for registering the requested multimedia call and reserving with the bandwidth for subsequent allocation to multimedia data streams. See column 4-8.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
